AIR TRAGEDY'S CAUSE SOUGHT

5 Federal Agents Sifting Crash Facts; Bodies Of All Victims Identified

By JACK ESHLEMAN
United Press Staff Correspondent

EVANSTON, Wyo., (UP)—Federal investigators waded through the snows of a mountain peak today collecting bits of wreckage from the United Airlines' transcontinental plane "Mainliner" which crashed Sunday night, killing 19 persons in the nation's worst commercial airplane disaster.

The company announced that remains of the wreckage would be burned today after federal and airline officials have salvaged vital instruments aboard the transport.

The officials were principally interested in one instrument used on all United planes—a recording barograph. If found reasonably intact it will indicate up and down movements of the plane throughout its flight.

The scene, 10,000 feet up in the Uinta Mountains of northeastern Utah, furnished only slight hope that the investigators ever would learn what happened to cause the crash.

Five agents of the Department of Air Commerce were in charge of the investigation. They were assisted by United Airlines representatives who were concerned vitally with the cause of the company's third disaster in the west during the past year.

The 19 bodies were carried away on litters. They were wrapped in oilcloth, tied to boards and then fastened by ropes to pack horses. Five miles away they were placed in trucks which could not be negotiated any further up the slippery mountain trail. The bodies arrived in Evanston last night and were placed in a mortuary. All outsiders, in-

Elder Thuemler Given Farewell

Pastor Of Adventist Churches Being Transfered To Pulpit In Yuba City District

Approximately two hundred friends of Elder and Mrs. T. L. Thuemler and family gathered at the Seventh-Day Adventist school near Smith Flat on Tuesday evening to tender them a farewell supper and reception.

Elder Thuemler, pastor of the Seventh-Day Adventist churches in El Dorado County, has been transferred to Yuba City and will leave the latter part of the week to take up his new duties.

Following the supper there was an interesting and entertaining program presented, at the conclusion of which a beautiful remembrance was presented to the guests of honor.

Although Elder Thuemler takes up his new duties this week-end, he will return to El Dorado County about the first of the month to spend a few days here on business.

CHARTER MEMBER HONORED BY REBEKAH LODGE ON MONDAY

Following the regular meeting of Leona Rebekah Lodge, of Placerville, on Monday evening, there was a social time at which special compliment was paid Mrs. Mary Secombe, only surviving charter member of the lodge, who this month celebrated her 81st birthday anniversary.

Mrs. Secombe has been a member of the lodge since its institution in 1876 and is a past officer of the lodge. She was presented with a beautiful bouquet on behalf of the lodge by Grace Vennewitz, noble grand and all present joined in singing a number of old-time songs.

When refreshments were served, Mrs. Secombe was presented with a birthday cake surmounted by eighty-one candles. The presentation was by Mrs. Louise Toedt and Mrs. Dora Wood who also presented a birthday cake to Mary Lyon as the youngest member of the lodge with an October birthday.

The next social meeting of the lodge will be November 12 when members of Morning Star Lodge, I. O. O. F. will be entertained at a pot luck supper. A program will fololw.

$46 "Surprise" Boosts Scout Fund Total

When Chairman John Palmer "closed the books" on the Boy Scout finance campaign Tuesday, he thought he'd heard from all sources, but Tuesday afternoon Justice of the Peace T. F. Lewis made a report which added $46 to the fund.

This raised the total for the campaign to $699.90 and at the district Scouters' meeting Tuesday night, someone found a stray dime in corner of their pocket and made the total $700 even.

Dr. Lester B. Rantz, district chairman, voiced the Scouters' sentiments when he said, in effect, "That's a mighty fine showing."

COUNTY ROAD FUNDS REPORT MADE

$55,923.89 Expended During Fiscal Year To Maintain Routes; State Money Aids

The annual report of the Board of Supervisors of El Dorado County to the State Department of Public Works at Sacramento, showing the transactions of the County Road Fund, derived from the the State Motor Vehicle Fund and the Moter Vehicle Fuel Fund for the fiscal year ended June 30, 1937, has been received and approved, according to word from Julien D. Roussel, secretary of the California Highway commission.

The report showed that the County received $63,131.83 from the Funds indicated above and that expenditures of $69,197.87 were made during the fiscal year. A balance of $4,986.13 was reported as on hand at the end of the period. Expenditures for the purchase of equipment totaled $13,273.98.

The county had a balance on hand at the start of the year of approximately $8,000.00. This county also levied a road tax of $27,303.48, in addition to funds received from the state. A well-prepared report submitted by County Clerk Koletzke shows that $55,923.89 was expended for road maintenance and $13,273.98 for road equipment. No new roads were added to the county system during the year.

WAGE SCHEDULE FOR CITY SEWER IMPROVEMENT SET TENTATIVELY

Wages for skilled labor on the Placerville sewer improvement project will vary between 80 cents and $1.25 per hour, and the minimum wage for unskilled labor is 50 cents an hour, according to a schedule tentatively approved at a meeting of the city council on Tuesday.

The meeting had been called for Monday afternoon, but one of the board members was unexpectedly called from the city that day and the session was postponed until Tuesday.

The schedule as adopted is to be submitted to PWA officials and to Harry N. Jenks, supervising engineer and as finally approved will doubtless be set forth in the notice to contractors calling for bids on the project.

Postmaster Scherrer Resting Easily

Friends of Postmaster Joseph Scherrer, who was operated upon at San Francisco Tuesday, were happy to hear the report Wednesday that the came out of the anesthetic satisfactorily and barring unexpected complications, should get along satisfactorily.

Mr. Scherrer was operated upon Tuesday at St. Luke's hospital by a specialist in consultation with Dr. A. A. McKinnon. Mrs. Scherrer is at San Francisco to be with the postmaster during his convalescence.

Dr. McKinnon returned to Placerville Tuesday evening.

Lions Hear Talk On Moth Control

Carroll Miller was the speaker at Tuesday's luncheon meeting of Placerville Lions, discussing the control of the codling moth in the fruit industry. The meeting convened as usual at Hotel Raffles.

Lion President Bill Hayes presided and the business of the meeting included welcoming Norman H. Robotham, publisher of the Pony Express Courier, as the new Cub of the den.

MARTINOVICH "IRON MIKE"

Bengal Fullback Has Played 60 Full Minutes Of Last 3 C. O. P. Football Games

STOCKTON — Phil Martinovich, of Placerville, the College of Pacific fullback, is known by the nickname of "Iron Mike." and it seems the title is deserved.

Playing his fourth year of football at C. O. P., Phil gained the title in earlier years because of his line-plunging ability, but now, it seems, he has yet another qualification for being called "Iron Mike" Martinovich.

Acknowledged the greatest defensive back ever developed at Pacific, Martinovich has played the full sixty minutes of each one of the last three games on the Bengal schedule.

So far this season, Martinovich has played sixty minutes of football against San Jose State College, Chico State College and the University of California.

The performances of the Placerville athlete against San Jose State College and the University of California are duplications of his play in 1936, when he completed both games without substitution.

Nov. 10 Date Of Senior Play

Original Date Abandoned To Avoid Conflict With 3-Day County Fair

Owing to the County Fair being held November 5, 6, and 7, the date of the high school senior play has been changed to November 10.

"New Fires" has been selected for presentation. It is by the well-known playwright, Charles Quimbel Burdette.

There are fifteen parts to be enacted and every one is an excellent characterization. The play has sudden twists that make it enjoyable.

The two high school youngsters who play "I chase you and you chase me" on the stage with the widowed cook out to "get them," or the very stern father who brings his family to an old-fashioned country home and announces that all who eat must work for it all contribute their share to the success of the play.

The adjustment of the family to the father's edict is the "plot" of the play.

Rehearsals are well under way and the cast, under the direction of Tom Flynn, is working industriously in an effort to equal the records of previout class plays. Careful attention is being given to costume, stage, and properties.

The following business staff has been selected to look after these details: Business manager, Floyd Fisher; assistant business manager, Constance Taylor; stage manager, Helen Bennett; properties manager, Jane Lyons; wardrobe manager, Jeanette Landis; advertising managers, Stannard Gardner and Noreen Bonillo, and house manager, Dorothy Morris.

THEFT OF RIFLES DRAWS 3 MONTHS IN JAIL, PROBATION

Darcy Potter, who had pleaded guilty to two charges of burglary and applied for probation, was sentenced by Judge George H. Thompson on Monday to serve 30 days in jail on each count as a condition of a three-year probation. The court ordered that the jail terms may run concurrently.

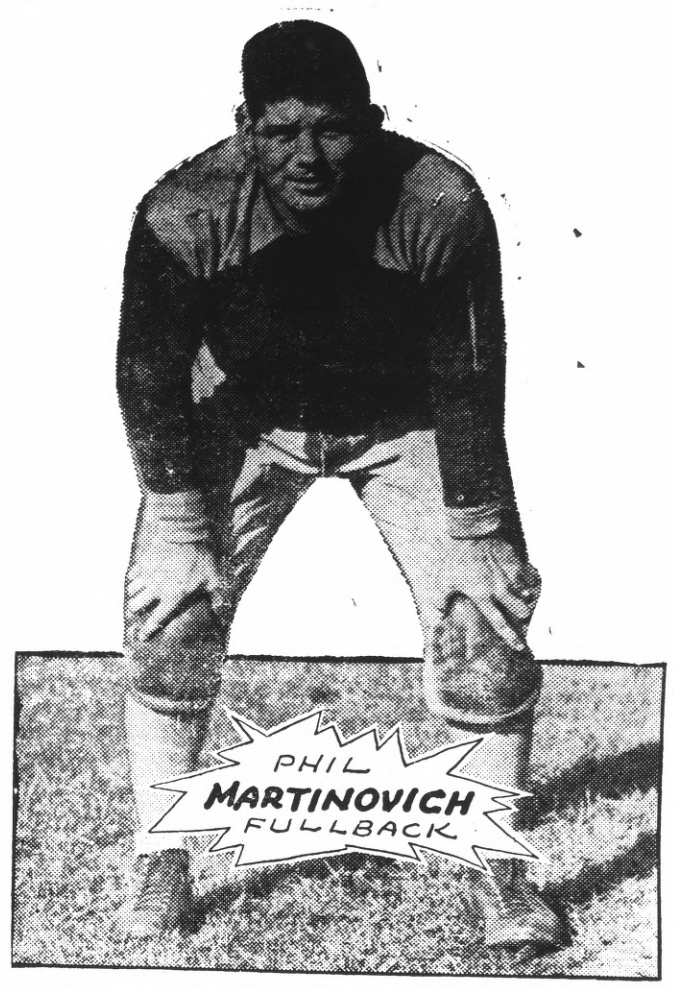

Potter had pleaded guilty to charges on entering the home of Andrew Smith and the home of R. J. Schneebly, from each of which he took a rifle.

Brother Of Placerville Men Succumbs

The Leavenworth (Washington) Echo reports the recent death of Charles Piety, 50, a veteran of the World War and a brother of Fred and Edwin Piety, of Placerville.

Mr. Piety was a native of Indiana and served as a corporal in Trench Mortar Battery No. 216, in France.

In addition to his wife, he is survived by three sisters and one other brother in addition to the two named above.

IF YOU WERE OFF FOR A TOUCHDOWN with nobody between you and the goal line but Phil Martinovich, do you think you could get around "Iron Mike" and cross the College of Pacific's goal? This photo of El Dorado County's man on the Bengal eleven was snapped on the C. O. P. campus at Stockton recently.

"IT'S ALWAYS FAIR WEATHER WHEN GOOD FELLOWS GET TOGETHER"

Now, this is the story as it was told to me:

Otto Perschke, of El Dorado, and a member of the local American Legion post, knew of the post's plans for continuing improvements at the home of Earl Monterichards, a disabled war veteran of Placerville.

So, one day Perschke was in Sacramento and he went to the W. P. Fuller Company store there and told the story about the Legion boys helping to fix up Earl's house. And Cecil Wilkinson, the W. P. Fuller manager, thought that was fine and he wanted to help out with the program too, so he offered to give the Legionnaires some wallpaper for the house.

"But," said Mr. Wilkinson, "our agent in Placerville is Mr. Jay E. Fox and we wouldn't go 'over his head'. If you see Mr. Fox and it is all right with him, then we can do it."

So Mr. Perschke returned to Placerville and saw Mr. Fox. Of course, this wasn't all done in one day,—but anyway he saw Mr. Fox.

Mr. Fox heard about half the story and saw the point right away.

"Count me in," he declared, "we'll at least provide the paper at cost."

Then Mr. Perschke explained about what Mr. Wilkinson had said about giving the paper without charge if it was all right with Mr. Fox, and so Mr. Fox sat down and wrote a nice letter to the W. P. Fuller people and gave it to Mr. Perschke.

So Mr. Perschke took the letter and went to Sacramento, and Mr. Wilkinson called one of the clerks and gave orders that he should go with Mr. Perschke to the wall paper room and pick out enough paper for a five-room house of any quality or design that might be desired.

"Gee!" said Perschke, "that's swell!"

And so the clerk and Mrs. Perschke picked out the wallpaper, and Perschke brought it to Placerville, and one of these days there is going to be a "wall-papering bee" held by the members of El Dorado Post No. 119, American Legion, at the home of Earl Monterichards, through the courtesy of Fox Borthers and the W. P. Fuller Company.

That's why we put a headline on this story which says that it's always fair weather when good fellows get together.

Pigeons Deliver Bid To Buck Stew

Six carrier pigeons were released at ten o'clock Wednesday morning at the Pioneer Service Station to fly to their coop at the headquarters of the Fort Sutter Homing Club, Sacramento, and one of the birds carried an invitation to the members of Manhart Post, of the American Legion, to attend the buck stew of El Dorado Post, on October 27th.

The birds were released by Otto Perschke, whose nephew, Victor Sherer is secretary of the Homing Club.

The invitation for the Legion Post was extended by Commander Chesmore,—and Perschke affixed a postscript asking the Manharts not to eat the pigeon.

I. Vaninetti, charged with being drunk and disorderly, was sentenced Monday to serve five days in jail before Police Judge E. E. Creed.

Mr. and Mrs. Fred Miller are home from a vacation spent in the Pacific northwest.

Mrs. Albert Martin was a visitor on Wednesday fron Riverton.

GEORGETOWN FIREMEN HOSTS TO 2-COUNTY ASSOCIATION

The quarterly meeting of the Placer-El Dorado Volunteer Firemen's Association was held at Georgetown on Tuesday evening at the Odd Fellows' Hall, with the Georgetown Volunteer Fire Department as hosts for a buck stew.

The business meeting convened shortly after eight o'clock with talks and reports by members and visitors followed by motion pictures of forest wild life and the prevention and control of fires in the forests.

G. C. Lundley, fire chief for the Georgetown firest district, was chairman of the arrangements committee and the buck stew was prepared and served by the ladies auxiliary of the Georgetown department.

CATERS TO DOGS

MIAMI, Fla., (UP)—A canine catering shop, supplying cellophane-wrapped meals for dogs, has been established here. For convenience, coupon books have been prepared for the payment for the service.

Forest Supervisor Edwin F. Smith and Ranger R. C. M. Berriman, of the Georgetown district, were in the Wright's Lake district this week.

LANDON RAKES NEW DEAL

Calls For Opposition To Plan For Reorganization Of Executive Departments

By LYLE C. WILSON

WASHINGTON, (UP) — Former Gov. Alf M. Landon, abandoning the straegy of letting Democrats fight among themselves, led Republicans today in a long delayed offensive against the New Deal.

Convinced that the Roosevelt hurricanes of 1932 and 1936 have blown themselves out, Landon opened a campaign in his radio address last night for Congress to overhall the New Deal program. Charged President Roosevelt with personal responsibility for a lag in "social progress."

Landon was ready last winter to challenge the New Deal on Mr. Roosevelt's judiciary re-organization bill, but congressional advisers persuaded him then to discard a speech attacking the court proposals. They wanted Democrats to lead the court fight. Last night's address to 17,000,000 Republican voters who supported him in the 1936 presidential election was Landon's re-assertion of his G. O. P. leadership and a summons to party men to get into the battle on their own.

Landon's offensive was notable for careful selection of weak spots in Mr. Roosevelt's defenses. He slashed at the judiciary reorganization theory and called on congress to oppose reorganization of the executive departments and defend complete American neutrality in world affairs.

In that respect, many observers here foresee a congressional uproar over neutrality and a prolonged dispute if Mr. Roosevelt should insist upon government reorganization as outlined in his message to congress last January.

Landon charged Mr. Roosevelt with unconditional government and an in-

Chas. Fickert Summoned

Attorney Who Prosecuted Preparedness Day Bombers Victim Of Pneumonia

SAN FRANCISCO, (UP)—Charles M. Fickert, 63, the district attorney who directed the prosecution of Thomas J. Mooney and Warren K. Billings for the 1916 Preparedness Day bombings, died of pneumonia in Franklin Hospital late last night.

Fickert, whose memory was kept alive by the constant fight Mooney and Billings made to free themselves from San Quentin and Folsom prisons, had been ill several weeks and was placed under an oxygen tent four days ago.

The former district attorney maintained until the end that Mooney and Billings had a fair trial when they were convicted of tossing the bomb that killed 10 and injured 20 other marchers July 22, 1916.

Fickert was born in Kern County in 1873. He attended Stanford University, where he was a star athlete and from which he graduated in 1898 and was admitted to the bar in Los Angeles in 1899.

Sheriff Returning Auto Salesman To County

Sheriff George M. Smith left Wednesday morning for Sacramento to return Fred Anderson, auto salesman, to this county to face charges of deserting his family. The complaint was issued at the request of Mrs. Anderson.

Anderson had been sought for several days and was said by the sheriff to have been arrested Tuesday evening in the Sacramento district as a result of notices sent out on the state teletype system.

Officials indicated they are investigating other complaints against An-

12 MILLION NAILS

LIBERTY, N. Y. (UP)—A journeyman carpenter for more than 50 years, Ahrens estimates he has driven more than 12,000,000 nails. He figured he drove between 10 and 20 pounds of nails a day when hammering steadily, and devoted 150 working days a year to hammering.

Terraplane For '38 Displayed

Summerfield Agency Showing New Sedan, Brought Up From San Francisco Monday

Monday night J. E. Summerfield, Jr., dealer in this territory for Hudson and Terraplane cars, returned from San Francisco after spending three days there attending a northern California dealers meeting and showing of the new 1938 lines of cars. He was accompanied on the trip by his mother Mrs. J. E. Summerfield and Mrs. Mary J. Fisher of this city.

Mr. Summerfield drove home a new 1938 Terraplane 81 sedan, which is being exhibited at a preview showing this week at the Summerfield Garage on lower Main Street.

"A remarkable number of important refinements will be found in cars for 1938," Mr. Summerfield said. "While it may be true that there will be new fundamental changes in cars for 1938, there will be a tremendous number of important refinements, Every important unit in the chassis has been given microscopic attention to see in what manner it can be improved, either from the standpoint of design or material. Trained test drivers have been sent out on the road day and night driving thousands upon thousands of miles, deliberately trying to break up one part after another for the purpose of finding the weak spots. As a result of all of this study, scores of refinements, some only in minor detail, have been made in engineering and construction.

"If we were to briefly sum up what has been accomplished by all of these refinement, we would state that it has resulted in greater driving ease, greater smoothness of operation and longer life for the car.

"The selective automatic gearshift has been brought to even higher levels of efficiency to that this coordination under any driving circumstances has been improved to give quieter and more accurate operation. The use of this type of transmission with automatic clutch operation, plus tell-tale lights for oil pressure and battery charging arranged to warn the driver in the event the battery is not charged or oil pressure is not available, elimination of the use of the clutch pedal under all circumstances or driving and better vision from the driver's seat are all important developments from the operator's standpoint.

"Besides the improvements which result from the use of the selective automatic shift, we find quieter and smoother engines, greater roominess in the bodies, and aside from the straight engineering or mechanical part of the car, a luxury and refinement of interior upholstery and trim which has never before been equalled. So much has been don in all of these fields that we are sure the 1938 cars will provoke nothing but admiration."

"FIRST MAN'S" BONES SOUGHT BY SCIENCE IN BURMA

By JOHN F. FRANKISH
United Press Staff Correspondent

PHILADELPHIA (UP)—A "man hunt" which will cover many of the lesser known portions of Asia began this month when two internationally-known scientists sailed from New York in search of further evidence of ancient man's origin.

Dr. Hellmut deTerra, associate curator of geology of the Academy of Natural Sciences here, and Dr. Hallum Movius, of the Peabody Museum of Harvard University, wil lestablish a base at Mandalay, in Northern Burma, for an expedition that will carry them 25,000 miles in their quest. The expedition is sponsored by the two institutions.

In co-operation with the Burma division of the Geological Survey of India, the expedition will search for fossils of prehistoric man and animals in the gravels along the banks of the Irrawaddi River.

JOB BEQUEATHED

WATERVELT, N. Y., (UP)—A steady job at $30 a week for one year is the bequest Joseph Schrank received from his brother, Charles. Charles stipulated in his will that Joseph be provided with a job in his pharmacy, but that after one year the executors dispose of the business.

Dr. D. E. Stover has been transferred from the poultry laboratory at San Diego to the one in Petaluma.

This & That

By The Tattletale

An announcement of importance to every girl in the community as well as every parent of every girl is the one regarding the formation of a Girl Scout unit in Placerville. The first meeting is scheduled for October 29th at the American Legion Hall. Miss Jane Buerkell, a member of the Placerville Grammar School faculty who has had considerable experience in this field has consented to act as Captain. To assist her she will have Mrs. R. Ramsey and Mrs. Morey. The Ladies Auxiliary of the American Legion is sponsoring the movement. This is the third Girl Scout unit in El Dorado County—the first is in Camino and is headed by Mrs. Don Hook while the second is in Diamond Springs and is headed by Mrs. Charles Doe. Mrs. W. Liddicoet is Commissioner for the district. More power to them in their fine endeavors.

* * *

News of the airliner wreck Monday reminds us that today marks the anniversary of the Philippine Clipper Service—that remarkable air line that has flown over 1,500,000 miles without an accident. The safety precautions they take are almost fool-proof. While the continental lines haven't made such a good record as far as accidents are concerned, this company has real reason to be proud. Funny, isn't it, how that great industry continues to grow in spite of the handicaps it has had—but you can't keep a good man down.

* * *

Save the night of November 10 and plan to take the family to the High School senior play, "New Fires." Further announcements of the cast and play will be made in this paper at a later date but right now we do know that the play is a comedy and the leading parts will be played by Bill Flynn, Ruth Arnett Swift, Loren Dahl and Eloise Todd. It will be worth waiting for.

* * *

A book that has come to our desk this week titled "Newcomers and Nomads in California" by W. T. and D. E. Cross brings to our attention very forcemully an important question of the the day—What shall we do with the interstate immigration problem? California had has more than her share of the transisnts; yet the problem cannot be settled as easily as the city of Los Angeles and the state assembly tried to settle it last May in their half-cocked scheme to "stop transients at the border or deport them." The issue goes deeper than that for it is a national one. One-fifth of the population of every state was born in some other state (1930 figures—probably higher now). Victims of the drought areas, dust storms and flood areas did what they thought the most logical things to go—go to California and work in the fruit. For California, this wasn't the logical thing to do though no one denies the importance of those workers in harvesting the great crops of this state. Moreover, most of the people were substantial citizens and sought work conscientiously.

The load became unbearable around 1933 so the federal government stepped in with financial aid and ideas. They set up camps, health centers, family service bureaus and in general began the work of rehabilitation. Since California could not absorb them all many were sent to other states or back home and until another catastrophe occurs, the influx will resume its normal rate. The problem is far from settled, however—direct federal aid has been withdrawn and many live in areas away from help and under indeschibable poverty. Perhaps California should have had the name of the "Buffer" state.

* * *

We would like to end today's spurt with an observation as interesting as it is true—"There are two classes of nations — those seeking world peace and those seeking world pieces." 'Nuff said.

Canadians Lend More, Borrow Less

OTTAWA, Ont., (UP)—Canadians are lending more money and borrowing less.

The Dominion Bureau of Statistics reports that British and foreign investments in Canada dropped from $6,897,500,000 in 1935 to $6,833,700,000 in 1936. At the same time, Canada's investments abroad rose from $1,639,900,000 to $1,656,500,000.

United States investments dropped from $4,044,600,000 in 1935 to $3,984,400,000 in 1936. Canadian investments in the United States increased from $936,400,000 to $987,200,000.

CCC ENROLLEE ESCAPES CHARGING BEAR IN FOREST

GRAYLING, Mich, (UP) — Lewis R. Buchanan, a CCC enrollee, will not quarrel with anyone who says a female bear carefully guards her young.

Buchanan was working on a hilltop when he accidentally stepped on a bear cub. Immediately afterward, he abandoned his job.

"The mother bear reared up 15 feet in front of me and charged," Buchanan said after he regained his breath. "I didn't have time to think. I just ran downhill at top speed with the bear at my heels for more than 50 yards. "

The bear apparently decided to quit the chase so she could inspect her cub. When she returned to the hilltop, Buchanan sat down to recover.

TURTLE WELCOME

MT. MORRIS, Ill., (UP)—Busy with her household duties, Mrs. Everett Lantz heard a strange tapping noise at the kitchen door. She opened it and found a large turtle on the doorstep. Turtle meat featured the dinner menu that night.

PEOPLE PAST 40 EAT TOO MUCH, WARNS DOCTOR

By JOHN U. TERRELL
United Press Staff Correspondent

SAN FRANCISCO, (UP)—Public Enemy No. 1 is not a gangster or gangster's son. He's something rather indescribable who goes by the name of O. Ver Eating. You've probably met up with him.

Dr. Victor G. Heister, noted globe-trotting health officer, who has spent more than half a century battling diseases which could wipe out cities and armies with one infectious sweep, says that the habit of over-eating has created the greatest national crime wave America has ever known.

Dr. Heiser has chased typhus and malaria and plague all over the world. Now he's home to warn America that it has problems far greater to consider than epidemics. And he's telling the middle and old-age groups that while micro-organisms have been licked, not a thing has been done to protect them from O. Ver Eeating's swift attacks.

"At last the gates have been opened and we are slowly discovering that a great percentage of our oldsters are digging their graves with their teeth." he said. "I don't think there's any question but that over-eating is the greatest national crime today. We continue to think in terms of pies and biscuits mother used to make and forget that most of the middle and old age ailments are born of stomachs that are too full."

The doctor has no patience with dietary fads. Eating habits must be established during youth, and the whole problem is not only one of research, but of education, he argues.

PURSUES SHERIFF

KISSIMEE, Fla., (UP)—Hardy Bouree tried for 24 hours to reach the sheriff's office here by telephone to surrender in connection with a shooting case. He finally gave it up as a bad job and drove into town and gave himself up.

Notice of Intention to Engage in the Sale of Alcoholic Beverages

October 18, 1937.

To Whom It May Concern:

Notice is hereby given that fifteen days after the above date, the undersigned proposes to sell alcoholic beverages at these premises, described as follows:

Restaurant, North side Main Street, Diamond Springs, California.

Pursuant to such intention, the undersigned is applying to the State Board of Equalization for issuance of an alcoholic beverage license (or licenses) for these premises as follows:

ON SALE BEER AND WINES.

Anyone desiring to protest the issuance of such license may file a verified protest with the State Board of Equalization at Sacramento, California, stating grounds for denial as provided by law.

BACK HOME AGAIN — By Ed Dodd

LOVE LETTERS OUT-MODED BY TWO-WAY RADIO INSTALLATION

MILWAUKEE (UP)—It isn't that Tom Strothman doesn't trust his sweetheart but he likes to keep in touch with her.

That is why, he said, he built two two-way short-wave radio sets—one for his girl, Mildred Chase, and one for himself.

Now, no matter where Tom is—even in his automobile or sailboat—he san keep in communication with Mildred.

One of Tom's first moves when he started to court Mildred was to show her his short-wave station in the attic of his home. Mildred, who can take a hint as well as the next one, studied the Continental code under Tom's direction and soon received an operator's license.

Their short-wave sets kept romance alive while Tom attended the University of Wisconsin at Madison and his sweetheart stayed in Milwaukee.

They agreed that they would talk by short-wave at 5:45 p. m. daily.

"We could talk to each other for hours, and no cranky neighbor could break in and tell us to get off the line," Tom said.

Your Singer man, David Perkins, will be in town several days. Call Mary Perschke, 241. Oiling & minor adj. free. SINGER SEWING MACHINE CO.

Non-Swimmer Paddles Out As Car Plunges

ROCHESTER, N. Y., (UP) — Fred Coomer, 26, of Fairport, thought he couldn't swim a stroke until his car plunged into the Erie Barge Canal near here. He unconsciously swam 25 feet to safety.

"I haven't any idea how I managed to get ashore." he said.

DEATH VALLEY ANIMALS FOUND TO EXIST WITHOUT WATER

BERKELEY, (UP) — Twenty six distinct species of mammal life ranging from coyotes to mice inhabit Death Valley, according to Dr. Joseph Grinnell, curator of the museum of vertebrate zoology at the University of California.

Dr. Grinnell, who proved that all is not death on the arid sands of Death Valley, said the animals seem to thrive on the waterless plains. They are endangered only by the inroads being made into the valley by man, he added.

The doctor said that although water holes are very scarce in the valley, few of the animals discovered up to this time seem to have any need for water.

Dr. Grinnell warned hunters that the valley will not stand much hunting or trapping if the wild life is to continue.

Mr. and Mrs. John Benfeldt are home from a two-week visit at Centerville, Idaho, with their daughter and husband, Mr. and Mrs. Fred Baumhoff.

OCEAN EXPLORED FOR NEW RESERVOIRS OF OIL

NEW ORLEANS, (UP)—Following the current trend of oil drilling to the coastal regions, members of the American Association of Petroleum Geologists will deviate from their custom of meeting in western centers to hold the 1938 convention here next March 16, 17 and 18.

New interest in recent developments among the Gulf marshes and in the Gulf itself is apparent.

Most observers feel that the 1938 meeting, because of its location in the center of the newly-developed fields, will attract many more than the 1,000 who registered at the 1937 meetings in Los Angeles.

Much drilling activity now is going on in both Louisiana and Mississippi and field crews are mapping the ocean floor for possible extension of oil fields several miles out from the coast. Program directors for the 1938 meeting already have planned field trips to take the visiting geologists to these centers of the new activity.

INDIA FRONTIER AGAIN PRESENTS PROBLEM FOR BRITISH

LONDON, (UP)—Great Britain's private "little war," the one on the northwest frontier of India, still drags on.

This is the explanation of the continued concentration of 5,000 British and Indian troops on the frontier, which is three times the normal strength. It was the Tori Khel Wazir tribe which started the frontier trouble and necessitated the costly reinforcements, but the terms of peace with them have been announced and yet the reinforcements stay.

It now appears that the Mahsuds, most powerful of the North Wazaristant tribes, are restless and menacing.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

New 1938 Studebaker
brings luxury down to earth in price!

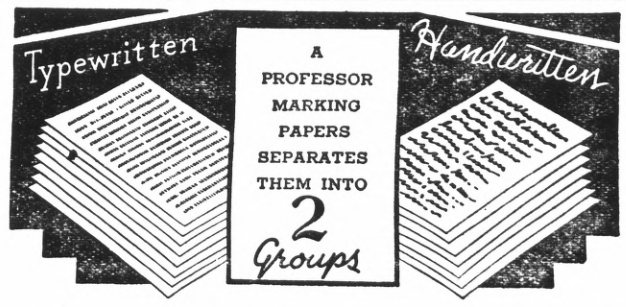

REFRESHINGLY new in every vigorous flowing line, the impressively big new 1938 Studebaker, in three short weeks, has become the toast of the nation.

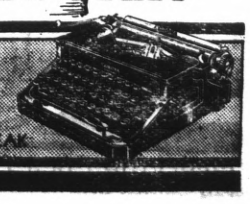

One ride in it is all the selling it needs. It's the steadiest, sturdiest, easiest handling, most comfortable car that a little money ever bought. Independent planar wheel suspension, finest hydraulic shock absorbers and optional automatic overdrive combine to give it riding qualities you never dreamed any car would have.

Air Tragedy's Cause Sought

(Continued from Page 1)

cluding relatives of the 16 passengers and three crew members who sped here by airplane, were barred from the mortuary. Authorities said no one would be allowed to see the bodies in their present condition.

Coroner Joseph B. Hopkins of Summit County, Utah, announced early today that the coroner's verdict was accidental death. He and county attorney B. J. McDonough held an inquest at the scene of the crash yesterday and decided to "blame nobody," Hopkins said.

Every piece of the 174-pound mail cargo was reported to have been recovered, although only one pouch was unbroken. A detachment of 24 soldiers from Fort Douglas had guarded the wreckage during the recovery of the mail cargo.

Department of commerce inspectors sent here by Secretary of Commerce Roper in Washington announced that a meeting would be held Saturday to decide the time and place for a formal hearing.

The inspectors were operating from a base five miles below the scene of the crash, and more supplies were to be moved there today, indicating they would conduct a long and thorough search for vital parts of the plane's two motors, hoping, from the position and condition in which they were found, to get some clues as to what happened.

CRIME LESSON STAGED UNDER SUPERVISION OF WPA

BUFFALO, (U.P.)—A novel marionette show stressing the moral that "crime doesn't pay" has been produced by members of the Buffalo Historical Marionettes, a unit of the WPA Federal theater project.

The production, entitled "Crime Prevention," will be shown in high schools, orphanages, hospitals and other institutions throughout Western New York.

It tells the story of a boy—a gang member—who is sent to reform school for stealing. Following his return to society he is convicted of a murder of which he is innocent. He narrowly escapes the death penalty through the confession of a former reform school pal.

Blister and bud mite spray on pears should be applied as soon as the crop is off.

The recent bovine T. B. test in Marin County showed .28 per cent in over 500 herds.

B. D. Caldwell brought suit in Superior Court Tuesday against the Gold Company, Ltd., asking judgment for a balance of $1,459.48 claimed owing on account and assigned to him by the Pan-American Engineering Corporation.

James Laughton Taken By Death On Tuesday

The funeral services for James Laughton, 81, a former county treasurer of Amador County, who died Tuesday at the home of his daughter, Mrs. Edgar Wilkinson, at San Mateo, will be held on Thursday at 2 o'clock from the Andrews and Grelich mission chapel, at 28th and W Ctreets.

The rites will be under the auspices of Amador Lodge No. 65, F. & A. M. Burialf will be at Masonic Lawn.

Mr. Laughton, who served 16 years as Amador County treasurer, is survived by his wife and two sons, in addition to the daughter named.

Garden Section To Meet Tuesday Afternoon

There will be a meeting of the Garden Section of the Shakespeare Club at the clubhouse on Tuesday afternoon, October 26, with Mrs. L. J. Dormody, section chairman, presiding.

All members of the section are urged to be present to start their work for the year and to discuss important matters concerning the flower show to be held at the coming county fair.

Coffee-Drinking Parrot "Awks" For Service

DUANESBURG, N. Y., (U.P.)—A coffee drinking parrot is the pet of Mrs. F. Dee. Every morning the bird sips the beverage from a cup on the breakfast table.

The bird has not yet learned to say "polly wants her coffee," but she has no trouble conveying that information by a bombardment of screeches, screams and "awks."

Landon Rakes New Deal

(Continued from Page 1)

ability to administer.

He cited New Deal methods as unconstitutional but shot his hottest fire at the senate's failure to inquire into the fitness of Hugo L. Black to become an associate justice of the supreme court.

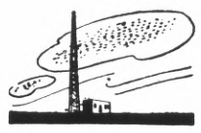

Landon's address seemed to advise anti-New Deal legislators to make their first challenge in the forthcoming special session on the issue of American neutrality. He charged that Mr. Roosevelt had nullified the principle of neutrality by failure to utilize the powers granted by congress, and by his "quarantine" address delivered this month at Chicago.

The Landon address evidently ends the period during which the 1936 nominee has been waiting for an opening. He is confident that he has found it. The Kansan came out of the storm cellar with a man-to-man challenge to Mr. Roosevelt which will require some kind of reply.

AS LONG-LASTING AS A HILLBILLY FEUD

Blue Ridge Homespun

by
HART SCHAFFNER & MARX

A 50TH ANNIVERSARY 1887 1937 VALUE

You can be as reckless as the famed "Martins and the Coys" of Hillbilly musical fame—with a Blue Ridge Homespun suit. For Blue Ridge is the toughest, most durable suit you've ever seen. It stands up under months of punishing wear because it's made of sturdy, virgin cheviot yarns executed in a wear-proof waffle weave.

But Blue Ridge isn't strictly a rough-and-tumble suit. Its smart Hart Schaffner & Marx styling and its beautiful new patterns and shadings for fall make it one of the best-looking suits you'll see anywhere—in office, drawing room or stadium. A wide range of colors and patterns to choose from, including smart new Glen-O-Plaids and stripes.
